1. Books, survey and expository papers (peer reviewed)

2. Research papers (peer reviewed)

3. Submitted papers

67. L. Maniar, M. Meyries and R. Schnaubelt, Null controllability for parabolic problems with dynamic boundary conditions of reactive-diffusive type.

68. R. Schnaubelt, Stable and unstable manifolds for quasilinear parabolic problems with fully nonlinear dynamical boundary conditions.

69. T. Jahnke, M. Mikl and R. Schnaubelt, Strang splitting for a semilinear Schrödinger equation with damping and forcing.
