

SS 2010

Seminar „Calculus of Variations“

In the summer semester 2010 we will hold a Seminar on the topic
Calculus of variations and applications to boundary value problems
in continuation of our lecture course in the winter semester 2009/2010.

In the seminar we will discuss original research papers. Required is a good understanding of the topics discussed in our lecture course.

Interested students should come to a first meeting on
Monday, February 8th 2010 at 13.15 (before the lecture) in S 33.
