

A-Fri-Ka Riemannian Topology (Online) Research Seminar

Seminar Announcement for the Summer Term 2021

Contents:

The Augsburg-Fribourg-Karlsruhe (A-Fri-Ka) Riemannian Topology Seminar addresses advanced master and PhD students, in the latter case especially, but not at all restricted to, members of the Heidelberg-Karlsruhe Research Training Group 'Asymptotic Invariants and Limits of Groups and Spaces' who wish to learn about and getting insight into current research topics from differential geometry, geometric analysis and geometric topology.

The seminar will take place online on Thursday afternoons on a bi- to tri-weekly basis depending on availability of the speakers.

Further information on contents and dates can be found under

<https://sites.google.com/view/a-fri-ka-riemannian-topology/home>,

and everyone interested in participating is asked to contact us via email to 'tuschmann@kit.edu'.
